

1100 × 700 × 1000 Handmade Hydrotherapy Whirlpool Bath

Deep seated soak · flush jets · colour matched into the Omnigel · built to the British Standards.

THE BATH

Overall size	1100 mm (L) × 700 mm (W) × 1000 mm (H)
Format	Seated deep-immersion whirlpool bath — water over the shoulders when seated
Construction	Omnigel built-up system — 7-layer standard, up to 13-layer with the insulated thermal build
Warranty	30-year warranty, every bath
Colour	Colour matched into the Omnigel (never painted). White as standard; any RAL or BS 4800 shade to order.
Handmade	Made by hand in Somerset, Great Britain

THE WHIRLPOOL SYSTEM

Whirlpool jets	Flush stainless-steel jets — never protruding. 8 to 48 jets, on a patented load-transfer flange that cannot crack or peel.
Air spa	Optional independent air-jet system with variable turbulence and a massage mode.
Jet-fill	Optional — fill the bath through the jets, keeping the pipework flushed with fresh water.
Keep-warm heater	Optional inline water heater holds your soak at temperature.
Control	Glass Touch control — water jets, air jets and lighting from one sealed glass panel.
Chromotherapy	Up to four LEDs — 9 solid colours and 9 fade sequences.
Hygiene	Automatic blow-dry purges every pipe after use — no stagnant water, no build-up.

ELECTRICAL & INSTALLATION

230 V · dedicated 13 A fused spur (16 A+ with the heater) · 30 mA RCD · pump pre-fitted on an adjustable stand.

BUILT TO STANDARD

BS EN 12764

Whirlpool baths — hygiene and entrapment safety

BS EN 60335-2-60

Electrical safety of whirlpool appliances

BS 7671

UK wiring regulations — 30 mA RCD protection
