

Your 30-year guarantee.

Every Omnitub is hand-built to be kept for life. Here is exactly what your guarantee covers, and what keeps it valid.

WHAT'S COVERED

The Omnigel shell	30 years against manufacturing defects — the hand-built, colour-through shell.
Colour	Cast into the gel, guaranteed never to chip back to a white base, fade or peel.
Whirlpool system	Pump, blower, control and jets covered against manufacturing defect; PVC pipework covered long-term.
Plated finishes	Colour-matched plated jets and brassware covered against defect.

KEEPING IT VALID

Install by a registered electrician to BS 7671 / Part P, on the specified protected supply.

Clean with the recommended products only — no abrasives, and no bath or Epsom salts, which can stain the surface and void staining cover.

Run the jet-system clean cycle periodically as set out in the care guide.

HOW TO CLAIM

Contact us at info@omnitub.co.uk with your order details and a photograph. We handle every claim directly, from our Somerset workshop.
